Title: Innovation - converting radical thinking into pure delight

Visual: Chalk figures on board or close up on an open pack of chalks.

Goldcrest homes are about stimulating concepts. Fresh ideas. New approaches. Real flair.

All our apartments offer a choice of products and technologies which reflect the latest thinking from leading manufacturers and designers, around the world.

There is always something that redefines the way you think about your home. Ask about roof terraces, gymnasiums, cinemas, home security, air conditioning, environmentally efficient energy systems and wiring for communications and entertainment.

All Goldcrest homes are designed to enhance and complement the surrounding architecture. In terms of scale. In terms of skyline. In terms of detail.

Our architectural teams have consistently produced designs which redefine accepted visual standards. Buildings which get noticed. Which provoke thought. Which create desire. Which make a positive, uplifting statement for those lucky enough to live there.

These exterior qualities are reflected in Goldcrest interiors. Exciting personal spaces - restrained, intimate, subtle, warm, flexible - a unique framework for enhancing and developing your personal lifestyle.
